

▲ AUGUST 2019

In this issue of our monthly CBD Clean & Safe Report, we take a look at some upcoming special projects we'll be working on and provide stats that illustrate the work we've completed in the past month.

SPECIAL PROJECTS

In August, the ambassadors focused on several Clean, Landscaping and Hospitality Initiatives, including planter maintenance and cleaning.

In September, staff will focus on daily hosing of the sidewalks at The Banks as well as the surrounding areas. They will also paint parking meter poles in the South Central section of the Central Business District. Painting of the light arches at Piatt Park will begin and an increase in pressure-washing will occur throughout the district.

Following discussions with multiple sector groups, the Downtown Ambassadors are planning to clean the bridges over the Ohio River. The intent is to focus on the Clay Wade and Taylor Southgate bridges. The ambassadors will clean the pedestrian walkways only, not the roadways.
