

# Engagement and dedication creating and maintaining positive change

## Sector Groups

## Downtown Cincinnati

A sector group is a group of interested downtown stakeholders including property owners, retailers/merchants, residents, etc. in a particular geographical boundary of downtown. Monthly and bi-monthly meetings are held and attended by Cincinnati Police Central Business Section (CBS) and Downtown Cincinnati Inc. (DCI) representation. The purpose of these meetings is to identify, discuss and resolve safe and clean issues within the particular sector as well as provide an opportunity for those in the sectors to get to know and work with one another.

The Downtown Sectors are within the Special Improvement District which DCI serves. The boundaries are Eggleston Avenue on the east, Central Parkway on the north, Central Avenue on the west (including the Centennial Buildings), and the Ohio River on the south (excluding the stadiums).

Although DCI helps to facilitate the groups and assist with problem solving, the sectors are led by stakeholders within the respective sectors. The sector leaders coordinate the meetings, the agendas and minutes, and maintain a member database. The leaders from all sectors meet monthly to review issues in their particular sector as well as share progress reports, develop strategies to solve problems, and identify positive stories that may be of interest to the media.

- The NORTHEAST and NORTHWEST Sectors are within the boundaries of the south side of Central Parkway between Central Ave to Eggleston, to the north side of Sixth Street.
- The SOUTHEAST and SOUTHWEST Sectors are within the boundaries of the south side of Sixth Street between Central Ave and Eggleston, to the Ohio River.
- The SOUTHWEST Sector is within the boundaries of the south side of Sixth Street, the west side of Vine Street, the Ohio River and Central Avenue.

For a list of the sector leaders, their contact information, and the meeting dates, times, and locations, please see the reverse side of this document.
